

Here at Indigo, we're passionate about careers education.

Not every student knows what they want to be “when they grow up”. Even those that do have an idea will still need some help and support along the way. It can be a minefield of almost infinite (and ever-changing) career pathways. Guiding students through this minefield can be a real challenge, particularly when you add in a requirement to meet the Gatsby Benchmarks.

The good news is that over the last year, the team behind *Careers* and *The Careers Leaders Handbook* have been working hard to produce a ‘gold standard’ online resource that will streamline the careers education journey for you and your students – Indigo.

Indigo Careers module is your starting point for all things careers. Investigate careers with our search, filter and compare functions. Take a step back and look at the professional world by industry sector — and keep an eye out for employer profiles.

Explore employers

Read about the country's biggest employers across the labour market.

Explore jobs

Search, filter (for example by subject, qualification, interest or personality trait) and browse our catalogue of over 650 job profiles, many with **NEW** video case studies — or, try career of the month or a lucky dip!

NEW!

Explore industry sectors

Take a look at our industry sector profiles for an overview of an area of work.

Stay abreast of career and industry news via Indigo newsletter

A curated collection of essential news updated weekly and delivered direct to your inbox.

Lesson plans

Make the most of Indigo with our free and growing collection of careers lesson plans and resources.

Work Experience

Add more power to your Careers subscription with our Work Experience bolt-on management tool.
