Things to consider

Creative freedom

It is enjoyable creating entertainment for a living and there is the opportunity to be creative.

Good perks

It is a young, vibrant business and the rewards can be high.

Difficult people

It can be tough when a game does not sell or receives poor reviews.

High-pressured

It is stressful producing a game for a timed release, like in time for Christmas.

Very competitive

The reputation of the gaming industry continues to grow and so more and more applicants want to work in this profession.
