Useful skills and qualities:

Happy working alone

Caring

Practical

Things to consider

Can run your own business

Many beekeepers work freelance or own their own businesses.

Little progression opportunity

There is little progression opportunity in beekeeping unless you get a science qualification to advance into the field of research.

Flexible hours

Beekeeping presents opportunities to work flexibly and choose your own hours.

Risk of injury/accident

Beekeeping comes with a risk of injury, but you will be required to wear protective clothing to prevent this.

Make a difference

Beekeeping is a rewarding career due to the job's positive environmental impact.
